AIR CON BRACKET

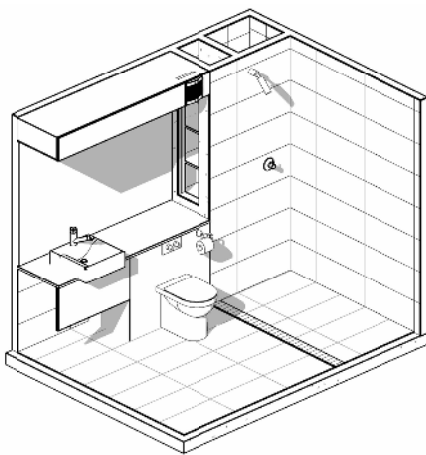

Bathpods

PREMANUFACTURED TILED BATHPODS

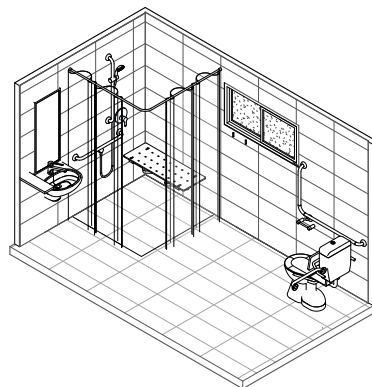

Our prefabricated Bath Pods offer a luxurious ensuite experience. Built in a controlled environment for top-quality standards, they cut installation time from months to hours, allowing quicker bookings. Designed to fit our eco structures, these pods provide a cost-effective alternative to traditional bathrooms, meeting all regulations while enhancing your space.

Colour Schemes: Available in light, mid, or dark tones to suit any location or project.

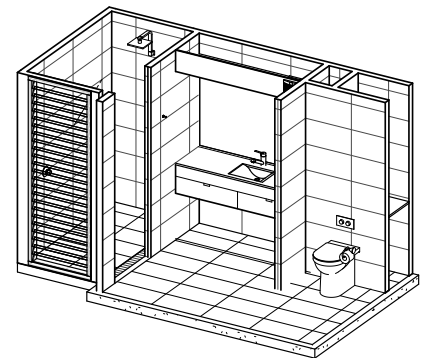

P1

x3 P2 Bathpods fit into
1 40FT HC Container

P4

x3 P4 Bathpods fit into
1 40FT HC Container

Bathkit

FLAT-PACK BATHKITS FOR EASY ASSEMBLY

Our flat-pack bathkits are designed for easy assembly and fit seamlessly within our enclosure annexes, providing a simple and cost-effective bathroom solution.

Each kit includes a vanity, toilet, fixtures, a freestanding towel rail and free standing shower. Installation, fit-out, electrical, and plumbing are managed by the client, allowing for efficient shipping of multiple kits in a single container and saving on freight costs.

Local builders and plumbers can easily handle the installation. For international clients with different power and plumbing needs, we are flexible and will adapt to meet those requirements.

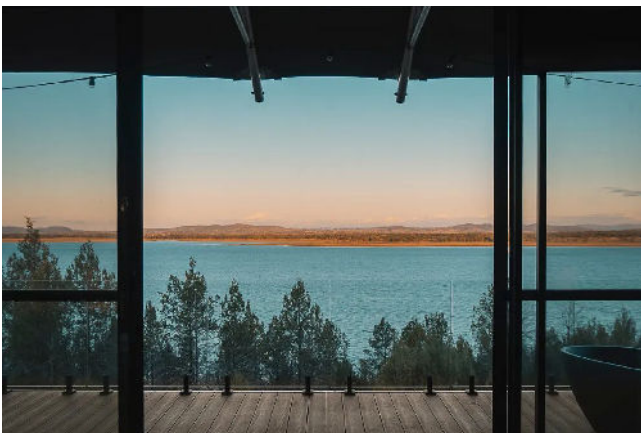

Glazing

PREMIUM GLAZING PROVIDING PANORAMIC VIEWS

At Eco Structures, we elevate the glamping experience with our glazing- including sliding doors and windows. Designed for luxury and durability, our glazing options offer panoramic views and ample natural light.

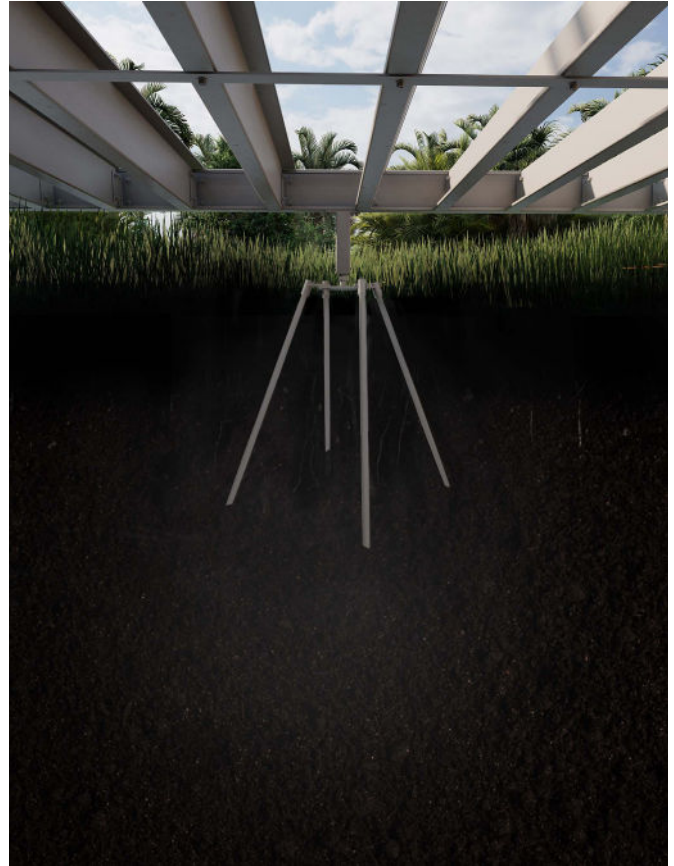

We also offer a range of upgrades, including security screens, double glazing, Low E glazing, and tinted glass. Additional features like slimline handles with key locks ensure both style and security. The aluminum frames are available in Black, Grey or opt to colour match with a specific RAL Colour.

Eco Anchors

CONCRETE FREE FOUNDATION

The Eco Anchor system allows our cabins to be installed with ease in remote, undulating environments, without the use of concrete. It works by driving the four drive rods into the ground using a pneumatic hammer.

Uplift Load Test

Test	Load (kg) Move	Load (kg) Fail
1	1450	2170
2	1470	2170
3	1420	2150
4	1450	2160

Ultimate Uplift Load Test Load Results

Time	Load	Deflection mm
4:20 PM	11.0kN	0
4:30 PM	11.5kN	0
4:40 PM	12.0kN	1
5:00PM	13.0kN	1
5:10 PM	14.7kN	2
5:20 PM	13.5 kN	2
5:30 PM	12.1kN	2
5:40 PM	12.0kN	2.5

Lift Kits

FOR UNDULATING TERRAINS

At Eco Structures, our adjustable lift kits simplify tent installation on uneven terrain, eliminating the need for site excavation. Our Lift & Brace kits provide strong, level bracing for Eco Tents, adapting to any landscape.

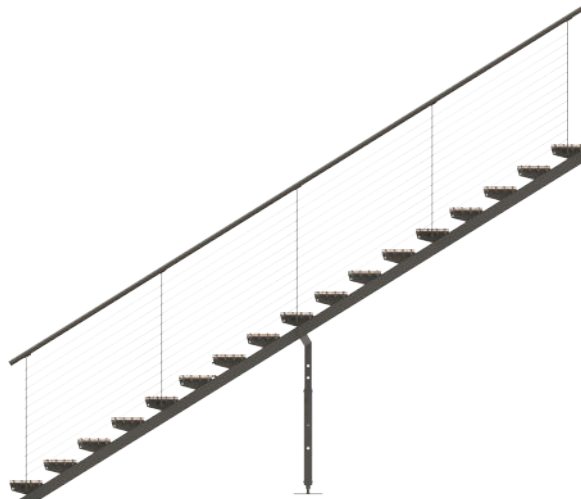

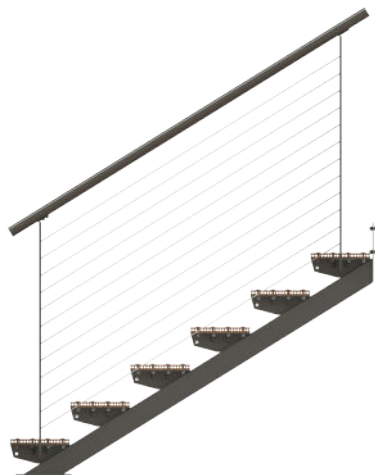

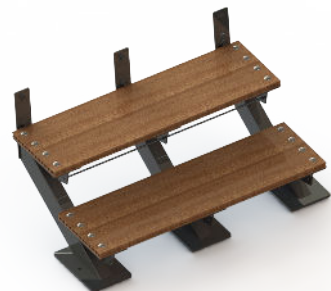

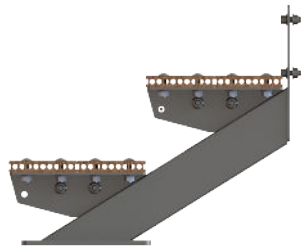

Available in telescopic lengths of 1, 2, and 3 metres, these kits can be customised to fit your ground profile and elevation needs. Suitable for square, round, or mixed pole profiles, they offer added protection in flood zones and severe weather. This flexibility not only enhances your views but also expands your living space, effortlessly adapting to the natural landscape.

<i>Extension Type</i>	<i>Price Each (AUD)</i>
Round Column 1m extension	\$134.00
Round Column 2m Extension	\$246.00
Round Column 3m Extension	\$347.00
Square Column 1m extension	\$101.00
Square Column 2m Extension	\$179.00
Square Column 3m Extension	\$269.00

Stairs

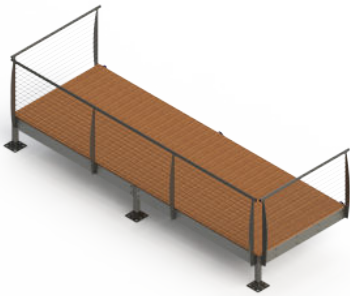

2 TO 17 TREADS AVAILABLE

Balustrades

ELEVATE YOUR VIEW, DEFINE YOUR SPACE

Our balustrade is proprietary to Eco Structures which has been designed to work together with our system. The balustrade allows the structures to be elevated off the floor whilst keeping everyone safe.

Vinyl Flooring

IDEAL FOR COMMERCIAL PROPERTIES

Make your mark on your Eco Structure space and impress your guests with our flooring options. Suitable for all of our eco-friendly structures, the Vinyl Planks are less expensive than a ceramic tile or wood plank floor, are stain and water resistant, easy to clean, and come in a broad range of beautiful designs to suit any style.

With a durability for all climates, show off to your guests the luxury of glamping where they least expect it.
