Rapid Tents

NON PERMANENT | **JANUARY 2026**

Rapid Tents

Rapid, non-permanent glamping tents designed for fast deployment.

FAST INSTALLATION

Rapid Camps can be installed in hours, not months, enabling operators to start earning almost immediately. Faster activation means quicker cashflow, reduced downtime, and the ability to capitalise on peak seasons.

MOVEABLE ASSETS

Unlike fixed buildings, Rapid Camps are fully relocatable. If demand shifts, opportunities arise elsewhere, or land use changes, the entire investment can be moved, expanded, or repositioned.

NO APPROVALS REQUIRED

Rapid Camps are classed as temporary structures allowing them to bypass lengthy planning approvals. This significantly reduces project risk, accelerates market entry, and lowers the administrative burden.

LOW IMPACT

Rapid Camps are designed to protect the natural landscape with minimal disturbance. This enhances market appeal, attracts eco-minded travellers, and future-proofs your investment against tightening environmental standards.

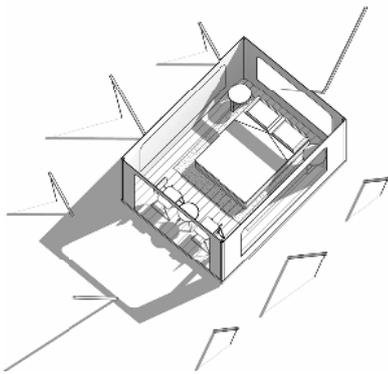

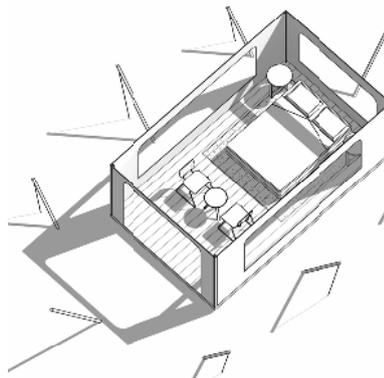

Rapid Tents

Minimum 20 MOQ

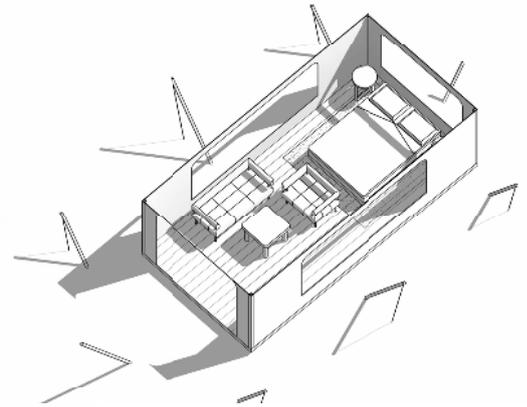

3.6m x 2.7m

4.5m x 2.7m

5.4m x 2.7m

- | | | |

Frequently Asked

LEAD TIME

90 days to manufacture
4 weeks shipping
1 day to install

LIMITED WARRANTY

Painted Structural Steel
5 Years Limited Warranty

Canvas & PVC
4 Year Limited Warranty

The Rapid Tent is not intended to be a permanent structure.

If installed for an extended period, the ropes must be re-tensioned every four weeks.

Failure to comply with this requirement will void the warranty.

GROUND CONDITIONS

The site chosen for install must be a level site. Each Rapid Tent has 100mm of adjustment in the event of a slightly unlevel site.

BED SIZE
